

North Star Mohican Casino & Hotel

Bowler, WI

The Tweet/Garot Mechanical HVAC/Plumbing Department was the chosen mechanical contractor for the Mohican North Star Casino project in Bowler, WI. This project consists of a 306,000 square foot building being built in two phases. The building will include a gaming floor restaurant, bingo hall, kitchen, administrative offices, and a 6-story 120-room hotel. One unique aspect of this project is the under floor duct system for heating and cooling. A 315,000 square foot multi-level parking ramp will be added to the total project.
