

Saint Clare's Hospital

Weston, WI

This project consisted of the construction of a new hospital for Saint Clare's and a new medical office building for Marshfield Clinic. This new 433,000 square foot facility opened in July of 2005. Tweet/Garot supplied Design/Assist Plumbing & HVAC for this spectacular facility.

Faced with tight construction schedules Tweet/Garot's ability to provide the Design/Assist delivery method and superior safety record ensured for a state of the art medical facility.
