Full Stainless Motors

Washdown-duty stainless build

Custom Product Screen

Sized to your produce

The Olney by Tweet Garot Destoner Washer is a continuous destoning and cleaning system that removes heavy and light contaminants from a wide range of food products automatically, with minimal manual labor and sanitary stainless-steel construction.

PATENTED DESTONING

Captures and removes stones, sand, dirt, glass, and other dense foreign materials in a fully automated process.

GRAVITY SEPARATION

Specific-gravity separation targets lighter contaminants, reducing hand-sorting and improving cleaning accuracy. Washer to float off light trash across the sieve.

E-Z CLEAN STONE CRIB

Two-stage destoning collects fine impurities and allows quick, operator-friendly removal.
