FEED SHAKER

Vibratory infeed shaking for consistent, controlled product flow

Like our Dewatering Shakers, Olney by Tweet Garot Feed Shakers use vibratory motion to deliver a steady, evenly distributed flow of product into downstream equipment. Available in a variety of widths, they're built to match your line's infeed requirements. *Full stainless-steel or epoxy washdown shaker motors are available

CONSISTENT INFEED
Vibratory action delivers a steady, evenly distributed product flow into downstream equipment.

TWO WIDTHS AVAILABLE
Available in a variety of widths to match your line's throughput and layout.

STAINLESS STEEL BUILD
Stainless steel frame and construction, consistent with Olney's sanitary equipment line.

COMMON APPLICATIONS

- **Infeed Distribution**
- **Line Loading**
- **Product Metering**

BUILT TO ORDER
Width and drive configuration are sized to your application. Contact us at foodbeverage@tweetgarot.com to size a Feed Shaker for your line.
