CLUSTER BUSTER

Breaks apart clustered product for even, single-piece flow

Tweet Garot builds cluster busters that break up clustered, clumped, or bridged product before it reaches your packaging or portioning line. Rollers and separation surfaces are custom sized to your product and throughput, engineered to break clusters apart without damaging product. Built in stainless steel for washdown duty, each unit is sized and configured to fit directly into your existing line.

NO DAMAGE SEPARATION

Rollers and separation surfaces break clusters apart without damaging individual pieces.

STAINLESS CONSTRUCTION

Stainless steel build with smooth, grounded and polished continuous welds for sanitary washdown duty.

SIZED TO YOUR LINE

Width, roller spacing, and capacity engineered to match your product and throughput.

COMMON APPLICATIONS

- **Frozen Product**
- **Breaded & Coated Items**
- **Bulk Declumping**

BUILT TO ORDER

Unit size, roller configuration, and capacity are custom-engineered to your product and line. Contact our team at foodbeverage@tweetgarot.com to design a cluster buster for your line.

Line Card – Process & Fabrication

Conveying Systems

- Metal Detect / Inspection
- Incline & Transfer
- Accumulation Conveyors
- Washdown Duty Belts

Process Equipment

- Mix-and-Blend Systems
- Cluster Busters
- Cutters & Cubers
- Portioning Equipment
- Custom Process Skids

Custom Fabrication

- Platforms & Stairs
- Structural Steel
- Hoppers & Tanks
- Guarding & Enclosures
- Catwalks
- Equipment Frames

Sanitary Piping

- Tri-Clamp Piping
- Process Skids
- CIP Systems
- Washdown Fittings

Why Tweet Garot

Tweet Garot delivers purpose-built food and beverage processing equipment; engineered, fabricated, and serviced under one roof.
