SANITARY CONVEYORS

Sanitary conveyance, engineered and fabricated in-house

Tweet Garot builds sanitary conveyors around your product, your layout, and your washdown routine. Every conveyor is custom configured in length, width, incline, and belt style, with a choice of materials, finishes, and components to match the application. Stainless steel construction and tool-less disassembly keep each system accessible for daily cleaning, giving food and beverage plants a conveyor built for the line it runs on.

CUSTOM CONFIGURED

Length, width, incline, and belt style engineered to match your product flow and plant layout.

TOOL-LESS DISASSEMBLY

Quick-release belts and components come apart without tools for fast breakdown and thorough daily washdown.

304 STAINLESS BUILD

Solid stainless-steel frame with all welds ground for sanitary washdown duty and long service life.

COMMON APPLICATIONS

- **Product Transfer**
- **Incline & Elevation**
- **Washdown Duty**

BUILT TO ORDER

Length, width, belt style, and drive configuration are sized to your application. Contact our team at foodbeverage@tweetgarot.com to configure a conveyor for your line.

Line Card – Process & Fabrication
